

ATHANASIOS TRIANTAFYLLOU

Software & Web Developer · Applied Informatics Graduate

Thessaloniki, Greece · +30 69 45993139 · triantathan@gmail.com · athtriantafyllou.github.io · [GitHub](#) · [LinkedIn](#)

PROFILE

Applied Informatics graduate with hands-on experience in web development, backend systems, and AI tooling. Comfortable working across the full stack — from crafting clean front-ends to setting up server infrastructure. Driven by a desire to contribute to technology that has real-world impact. Currently completing mandatory military service in Greece (June 2026 – February 2027), and actively exploring opportunities in data-driven and AI-focused roles.

WORK EXPERIENCE

Junior Software & Web Developer | [GoMeta](#) — Thessaloniki, Greece 07/2023 – 05/2026

- Designed and developed websites for clients using HTML, CSS, JavaScript, and WordPress, progressing from template-based builds to fully custom-coded solutions.
- Contributed to the development of an AI assistant tool ([myaips.cloud](#)) using Python, FastAPI, PostgreSQL, and Docker on a Debian server.
- Handled front-end design tasks including graphics and layout work with Photoshop and Canva.

Data Entry Specialist | [Scripta](#) — Thessaloniki, Greece 03/2026 – 05/2026

- Processed and transferred structured records across internal systems with accuracy and consistency.

Staff & Inventory Manager | [Plenty](#) — Thessaloniki, Greece 10/2022 – 08/2025

- Managed daily inventory and supplier orders for a busy cafe environment.
- Responsible for hiring, onboarding, and training new staff members.
- Handled scheduling and team coordination, maintaining operations under pressure.

Freelance Web Developer | [Useappility IKE](#) — Thessaloniki, Greece 07/2022

- Worked within the framework of the [ADAPT research project](#), integrating structured data into a WordPress-based platform.
- Collected, translated, and formatted data into JSON for use in a mobile application.

EDUCATION

Bachelor in Applied Informatics | University of Macedonia, Thessaloniki 09/2021 – 02/2026

- Relevant coursework: Artificial Intelligence, Big Data Analysis, Web Programming, Data Structures, Computer Systems, Procedural Programming (C)

High School Diploma | Thessaloniki, Greece 09/2018 – 06/2021

- Graduated with distinction. Member of the school robotics engineering team.

PROJECTS

Streaks — Habit Tracking PWA

- Built a Progressive Web App from scratch using vanilla JavaScript, HTML, and CSS to track daily habits. Designed for personal use and as a learning exercise in PWA architecture.

Browser Games Collection

- Developed several games from scratch to sharpen JavaScript, CSS, and HTML skills through practical experimentation.

AI Assistant Backend (GoMeta)

- Contributed to the back-end infrastructure of an AI assistant project using FastAPI, PostgreSQL, Docker, and Debian OS. Gained practical experience with server deployment and API development.

SKILLS

Proficient: Python, JavaScript, HTML5, CSS, WordPress, Elementor

Familiar: PostgreSQL, FastAPI, Docker, Debian, Supabase, PHP

Tools: Photoshop, Canva, Microsoft Office, Git

Operating Systems: macOS, Windows, Debian Linux

LANGUAGES

Greek: Native

English: Proficient — C2

French: Basic — A1

SOFT SKILLS

Decision-making under pressure — developed through years of hands-on management in fast-paced environments.

Team leadership & communication — hired, trained, and managed teams; handled interpersonal conflicts calmly.

Focus & organisation — able to work methodically through high workloads without losing attention to detail.

Adaptability — comfortable in new environments and with new tools; fast learner by habit.
